Notes:

ACI's 16th Arctic Shipping Summit will be taking place on the 11th – 12th March 2020 in Montreal, Canada. This edition will provide insight into the future of a market that is constantly developing and advancing: number of vessels, both cargo ships and cruise ships, operating in the Arctic due to sea routes opening further and the expansion of Arctic mining and extraction projects means that the Arctic has never played a more crucial role in global operations.

The two day event will consist of a number of informative presentations followed by interactive Q&A sessions and panel discussions, bringing together key industry stakeholders including ship-owners, ship-managers & associated solution providers, coastguards and governmental transport authorities, meteorologists, consultants & technology providers. Join us in Montreal to hear from fantastic line-up of leading executives and experts the opportunities provided for ship owners and how to overcome practical challenges associated with Arctic conditions.

Key Topics:

- Arctic Navigation Experiences and Best Practice
- Arctic Infrastructure: Current Development and Investment
- Cooperation with Indigenous Communities
- New Developments in Communication Systems
- Ice Information Technology and Training Requirements
- Autonomous Vessels: Arctic Advancement
- What's Next for the Polar Code?
- Emerging Markets and Sea Routes
- Arctic Project Developments
- Arctic Cruise Market Growth: Seizing Opportunities and Mitigating Risks
- Minimizing Ecological Impact of Arctic Shipping
